Subject Index

Award, the Maurice Goldblatt cytology, 290

Basal cell hyperplasia, 259
  colpomicroscopy of, 261
Basement membranes of normal epithelium, carcinoma *in situ* and invasive carcinoma of uterine cervix utilizing electron microscopy and histochemical methods, a study of, 369
Blood, a method for demonstrating malignant cells in the, 203
Book Reviews
  Koss, Leopold G., Grace R. Durfee: Diagnostic cytology and its histopathologic bases, 292
  Papanicolaou, George N.: Supplement II of the atlas of exfoliative cytology, 291
  Sirtori, Carlo, Ettore Morano: II Cancro del 'utero dalla macroscopia all'ultrastruttura, 291

Cancer diagnosis, sputum cell concentration by membrane filtration for, 168
Carcinoma, bronchogenic, exfoliated cancer cells in bronchi of lungs resected for, 177
  early cervical, possible mechanisms for nuclear nucleolar changes in, 211
  invasive, of uterine cervix utilizing electron microscopy and histochemical methods, a study of basement membranes of normal epithelium, 369
  in situ, colpomicroscopy of, 412
    colposcopy of, 401
    cytomorphology of, 422
    fluorescence microscopy on exfoliated cells of, 437
    histochemistry of, 359
    histomorphology of, 271
    Schiller test on, 415
    special microscopic studies on histological sections of, 399
    what is not, 331
    what percentage of cervices show early invasion in serial histological sections in uteri which were removed under the biopsy diagnosis of, 340
    with special reference to the amount of histological sections required (serial sections) and type of material, what constitutes a definite diagnosis of, 284
  of the urinary bladder by fluorescence microscopy, cytologic diagnosis of, 245
Cells, benign, as observed through the acridine orange fluorescence technic, morphology of, 250
  bone marrow, cytologic study of, by the Papanicolaou method, 241
  of endometrial and ovarian origin in human tissue cultures, diagnostic value of, 1
Cervical carcinoma, non-invasive zones around invasive, the atypical, 355
Cervicitis and endocervicitis, clinical viewpoint on the management of, 44
  colpomicroscopy of, 43
  colposcopy of, 40
  exfoliative cytology of, 36
  histochemistry of, 35
  histomorphology of, 31
  interrelationship of, and cervical carcinoma, 46
Clinical cytologists, the emergence of, 230
Cytodiagnosis, gynecological, fluorescence microscopy of hyperplasia in, 256
Cytology, exfoliative, detection of early cancer of the mouth by, 191
  the coming age of, 309
Cytomegalic inclusion disease, cytologic diagnosis of, 182

Degenerative and inflammatory lesions, the cytology of, 206
Dysplasia, 259
  cervical, experimentally induced, and cancer, physical properties of cells in, 217
  colpomicroscopy of, 261
  colpomicroscopy of, 91
  colposcopy of, 83
  exfoliative cytology of, 65
  histochemistry of, 61
  histomorphology of, 56
  management of, 95

Ectopy, ectropion and epidermization, and cervical carcinoma, interrelationship, 100
Endocrinology, gynecologic, the vaginal cytology of, 153
Epithelium, atypical, nomenclature of the, 344
Experiments, animal, 258

Histiocyte, small, morphology and significance, 77
Hyperplasia in gynecological cytodiagnosis, fluorescence microscopy of, 256

Inter-Society Cytology Council, cytotechnology section of, 205
Intestinal tract, upper, exfoliative cytology in non-malignant conditions of the, 187
Intracranial fluids, cytologic study of, 198
Invasive carcinoma by means of exfoliative cytology, can carcinoma *in situ* be differentiated from, 439

La Citologia Exfolitiva, 231
Leukoplakia, animal experiments, 115
  and cervical carcinoma, interrelationship, 129
  clinical viewpoint on management of, 128
  colpomicroscopy of, 125
  colposcopy of, 115
  exfoliative cytology of, 108
  histochemistry of, 105
  histomorphology of, 103

Malignant cells in the blood, a method of demonstrating, 203
Management of reserve cell hyperplasia, basal cell hyperplasia and dysplasia, clinical viewpoint on the, 263
Membrane filtration for cancer diagnosis, sputum cell concentration by, 168
Millipore technic, evaluation of, 195

Non-malignant conditions of the upper intestinal tract, exfoliative cytology in, 187

Papanicolaou method, cytologic study of bone marrow cells by the, 241
Potentially carcinogenic properties of air pollutants, a cyto-pathologic study of, 311
Pregnancy, the cytology of, 330

Reserve cell hyperplasia, 259
colpomicroscopy of, 261
basal cell hyperplasia and dysplasia, exfoliative cytology of, 142
and cervical carcinoma: interrelationship, 265
and dysplasia, histochemistry of, 253
histomorphology of, 133
Respiratory secretions, intranuclear inclusion bodies in smears of, 219
Respiratory tissue structures, the modern concept of, 385

Smears, preparation of, cytology of voided urine with special reference to benign papilloma and some of the problems encountered in the, 253
Sputum, natural and aerosol produced, collected from 776 asymptomatic men, a direct comparison of, 173

Tissue cultures, endometrial cells in, 1
Trichomonas vaginalis vaginitis, a pathognomonic sign of, 390

Urinary tract, exfoliative cytology of the, 195
Urine, voided, with special reference to benign papilloma and some of the problems encountered in the preparation of the smears, cytology of, 233
Uterine cervix during preganancy, dysplasia in the, 17

Vaginal aspiration and cervical scraping technics in the screening process for uterine cancer, a comparison of, 214
Vaginal smear in prolonged pregnancy, the significance of parabasal ("postnatal") cells in the, 393
